David selection ‘20

David Selection, la collezione “must have” di N.O.W. Edizioni si arricchisce di nuovi decori. Un intero volume di nuove proposte di rivestimenti murali su misura realizzati su supporto vinilico o fibra di vetro.

Principale protagonista della collezione, il David di Michelangelo, un immancabile classico delle nostre collezioni. Un David contemporaneo, edonista, amante del bello e della perfezione.

David Selection, the “must have” collection by N.O.W. Edizioni is enriched with new decorations. An entire volume of new proposals for bespoke wall coverings made with vinyl or fiberglass media. The main protagonist of the collection is Michelangelo’s David, an unmissable classic of our collections. A contemporary, hedonist David, a lover of beauty and perfection.

Un mondo ispirato da nuove visioni di bellezza, che trovano luogo nelle decorazioni ispirate a superfici tessili, cementizie e all’immaginario naturale.

Acquerelli, texture, sovrapposizioni inaspettate si fondono in questi nuovi decori, per definire il David dei giorni nostri, metropolitano, urbano e cosmopolita.

A collection inspired by new visions of beauty, which find their place in decorations inspired by textile, cement and natural imagery surfaces.

Watercolors, textures, unexpected overlaps blend in these new decorations, to define the contemporary, metropolitan, urban and cosmopolitan David.

Tutte le grafiche possono essere impresse su carta da parati o su fibra di vetro, per soddisfare esigenze di rivestimento murale sia in ambienti pubblici che privati: uffici, alberghi, ristoranti, anche per ambienti umidi come cucine, bagni, saune e palestre.

All the graphics can be printed on wallpaper or on fiberglass, to meet the needs of wall covering both in public and private environments: offices, hotels, restaurants, even for wet environments such as kitchens, bathrooms, saunas and gyms.

WALLPAPER ON DEMAND by N.O.W. Edizioni

Il servizio WallPaper On Demand by N.O.W. Edizioni, grazie alla tecnologia digitale, offre la possibilità di realizzare carte da parati su misura sia per formato che per soggetto. Le principali caratteristiche sono l'innovazione tecnica dei materiali e l'alta qualità degli inchiostri utilizzati, che ne assicurano una buona riuscita nel tempo, offrendo al cliente una nuova opportunità di personalizzazione nell'esecuzione di una parete. I soggetti proposti, declinati in diverse soluzioni cromatiche coordinate con quelle che sono le tendenze dell'architettura di interni, superano la ripetizione modulare, per arrivare alla realizzazione di immagini grafiche elaborate per essere riproducibili in grandi dimensioni.

Thanks to the digital technology, WallPaper On Demand by N.O.W. Edizioni offers the possibility to realize a wallpaper tailored for both format and subject. The main features are the technical innovation of the materials and the high quality of the inks used, which ensure a successful result over the years, offering to the client new customization opportunities in the execution of the wall decoration. The subjects are available in a wide range of colors coordinated with contemporary color trends for interior design. Our proposals exceed the modular repetition, to allow the reproduction of large format graphic images.

Il processo su misura: il cliente fornisce tutte le informazioni necessarie relative alle proprie esigenze e alla parete da rivestire, inviando al nostro team di progettazione alcune immagini e le misure della parete. Segue l'elaborazione e l'adattamento del soggetto scelto che viene sviluppato secondo un concetto sartoriale su misura.

Dopo l'approvazione del bozzetto da parte del cliente, si procede alla stampa dei rotoli di carta da parati necessari al rivestimento della parete. Ogni singolo passaggio del processo produttivo segue accurati controlli per garantire la massima qualità del prodotto finito.

The bespoke process:
The customer provides to our design team all the necessary information regarding their needs and the wall, sending some pictures and size of the wall. Then follows the development and adaptation of the chosen subject that is carried out according to a bespoke concept.
Upon customer approval of the sketch, we proceed to print all the rolls of wallpaper needed for the complete wall cladding.
Every single step of the production process follows strict controls to ensure the highest quality finished product.

Gli inchiostri / inks

Utilizziamo tecnologia di **stampa Latex** dotata di inchiostri a base acqua **sostenibili**, inodore e certificati per l'applicazione in interno.
*We use the **Latex printing** technology with water-based **sustainable** inks, odourless and certified for application indoor.*

La combinazione tra il supporto di stampa completamente privo di metalli pesanti, abbinata agli **inchiostri ecocompatibili**, soddisfa tutti i criteri correlati alla salute umana e ne permette l'utilizzo per la decorazione in ospedali, scuole e ristoranti.

*The combination of the printing support completely free of heavy metals, with **environment-friendly inks**, satisfies all criteria connected to human health and enables its use for internal decoration of hospitals, schools and restaurants.*

fiberglass

caratteristiche prodotto / product characteristics

Fiberglass, realizzato con speciali filati in **fibra di vetro**, è il sistema studiato per rivestire pareti e pavimenti di ambienti umidi quali: bagni, centri benessere, SPA, palestre e interni doccia.

Grazie alle sue proprietà tecniche **resiste all'acqua**, all'umidità ed è adatto ad essere trattato con i normali prodotti utilizzati per la pulizia domestica. Tutte le grafiche a catalogo possono essere realizzate con questo sistema.

*Fiberglass, realized with special **fiber glass yarns**, is the system designed to cover walls and wet areas such as: bathrooms, wellness areas, SPAS, gyms and showers. Thanks to its technical properties it is **water and humidity resistant** and it can be easily treated with common cleaning products.*

All catalogue designs can be realized in fiberglass.
